Maintenance and Repair of the Fieldgate Quay Wall

Colne Estuary, Essex

Henderson & Taylor who are working on behalf of Colchester City Council are scheduled to begin works on vital repair work to the collapsing quayside wall at Fieldgate Quay in Colchester on the 28th of August.

Works will involve excavation of the currently collapsed Quayside followed by Piling and Sheet Piling works to construct the replacement quayside wall. A temporary sheet pile wall will be used to cordon off the construction area from the river.

This Temporary sheet pile wall will not protrude into the river beyond the point of the original placement of the quayside.
